Thank you for attending this year's FIG Working Week in post-earthquake Christchurch

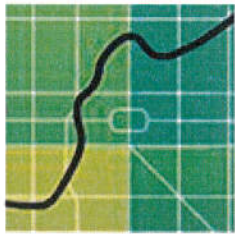

FIG Working Week 2016

CHRISTCHURCH, NEW ZEALAND
2-6 May 2016

Recovery
from disaster

Dear colleague,

FIG Working Week drew to an end three weeks ago. FIG would like to thank all of our attendees, partners, exhibitors and sponsors for another great FIG Working Week! We hope you enjoyed the conference and are back to work refreshed and energized with new ideas you can immediately put into practice. We hope to see you again May/June in Helsinki, Finland.

We hope that you found the conference informative and worthwhile. One of the aims of the Working Week was to enable you to return from Christchurch with a greater knowledge of the role of the surveyor and allied professionals in reducing disaster risk, responding to disasters, recovery and resilience.

We believe that our diverse and dynamic group of speakers provided in-depth insight. If you missed a presentation, the **proceedings are now ready**. Please visit www.fig.net/resources/proceedings/fig_proceedings/fig2016/index.htm
